

SCIENCE CLUB 2020-2021

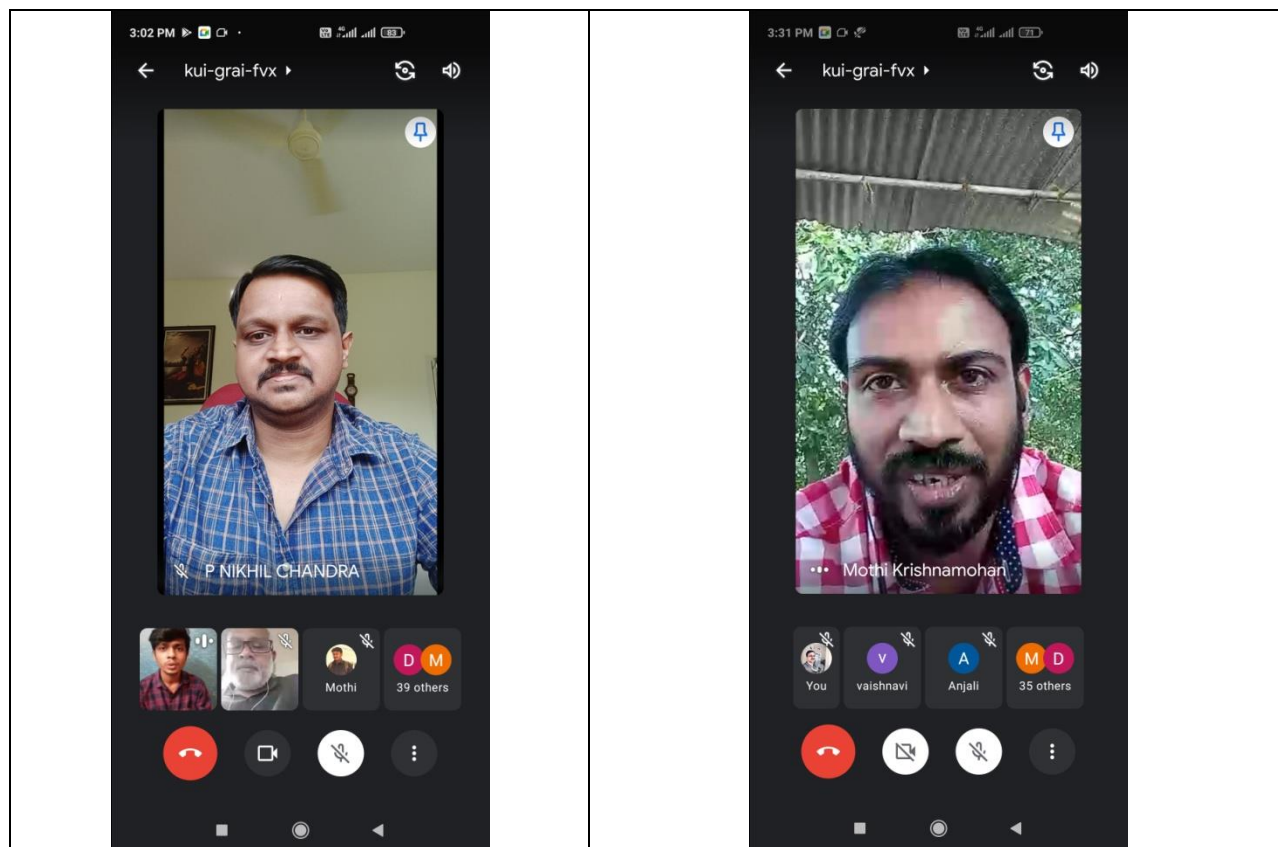

Sree Narayana College, Kollam

Report

<i>Club Coordinator-</i> Dr.P.Nikhil Chandra (Chemistry)
<i>Club Members-</i> Dr.Sheeja V.U. (Zoology), Smt.Saranya Babu (Physics), Smt.Neethu Vijayakumar (Botany), Dr.Deepa J.P. (Chemistry)
<i>Student Coordinator-</i> Kumari Sulthana Feroz (II MSc Chemistry)

Science club of SN College, Kollam is keen to improve the science and technology skills and knowledge of students, especially from science stream. So it is important to provide a solid foundation based on scientific understanding and awareness. The activities of the club are clearly restricted due to Covid 19 pandemic, in which we got only three months for regular classes and club activities. The **science club** made few activities even in the fear of Covid 19 pandemic to promote interest, understanding and knowledge in science activities among students along with developing interest in science and to develop skills in research and also in understanding covid and its deterrence.

The activities of the club were formally initiated with its official inauguration by Dr.R.Sunilkumar (Principal, SN College, Kollam) on 26/1/2021 through online mode via Google Meet. The program was presided over by club coordinator Dr.P.Nikhil Chandra. The inaugural session starts at 3pm with a prayer song by its member Abhinand bose of I MSc Chemistry. Kumari Sultana Feroz (student coordinator) of II MSc Chemistry delivered welcome speech. Dr. Mothi Krishna Mohan, Asst. Prof. of Chemistry, Christ University, Bangalore was the chief guest of the programme. Kumari Parameswari P (I MSc Chemistry), Kumari Anjali K (I MSc Botany) and Kumari Vaisnavi G (II MSc Physics) delivered felicitation for the programme. Our club member Kumari Lakshmi K S (I MSc Zoology) commented the vote of thanks for the programme. After the inaugural session, Dr.Mothi Krishna Mohan delivered a lecture on '*Some perspective of higher education and multidisciplinary research*', which was highly useful to science stream students. After the talk, the club members actively participated and cleared

Science club actively celebrate National Science Day 2021 with a theme "*Future of STI: Impacts on Education, Skills, and Work*", which was celebrated in India on 28 February each year to mark the discovery of the Raman effect by Indian physicist Sir C. V. Raman on 28 February 1928. We celebrated this special occasion by conducting an International webinar for our club members and science enthusiasts. An invited talk regarding "*Nanomaterial perspectives on combating Covid 19*" in this pandemic situation helped the students to understand Covid 19 in a better manner. The talk was delivered by **Dr.Sanoj Rejinold** (Dankook University, South Korea) on 07/03/2021 through online mode via Google Meet at 11 am. All the students actively participated in the discussion session and cleared all quires regarding Covid 19.

The club also conducted an ‘**Intercollegiate quiz competition**’ in association with Energy conservation club (ENCON) of this college and BPCL, Kochi in connection with *Science Day Celebrations*. The programme was held on 18/3/2021 at Department Seminar hall of Chemistry. About 15 teams participated in preliminary quiz round and only 5 teams qualified for second round. Students from TKM College, Kollam (Aliya TH and Sreelakshmi KV) bags 1st prize. Abhay Asok and Krishnagiri of our college won second prize. The programme was very useful and informative to students.
