Application of Econometrics In Business Research
Date: 25/7/2019

Resource Person :
Dr. Christabel P.J
(Dept. of Future Studies, Karyavattom)

Co-coordinator
Dr.Simu Rajendran,
Assistant Professor of Commerce
Vote of thanks
Rini (Student, I M.Com)

Report

Econometrics is the use of statistical and mathematical models to develop theories or test existing hypotheses in economics and to forecast future trends from historical data. It subjects real-world data to statistical trials and then compares the results against the theory being tested. Department of commerce had organized two day seminar on econometrics as considered as a main subject for PG students. Both first and second year PG students participated in the seminar.

College Principal Dr.R.Sunil Kumar, delivered the inaugural address and Dr.Diana Sajjanan delivered the welcome speech.

The Resource person, Dr. Christabel P.J gave an impressive talk to our students. She had covered wide areas of econometrics throughout the seminar and covered the areas of econometrics like general linear model, simultaneous equations models, distributed lags and ancillary related topics. Most of these problems were encountered while working on empirical research. Students were given certain practical problems in order to get a feedback on the seminar. Vote of thanks was delivered by a student named Rini from first year PG class.

Webinar : **Research Hypotheses**

Date : **18/5/2020**

Resource Person : **Dr. K Pradeep Kumar (Associate Professor, Govt College, Attingal)**

Co-coordinator : **Sri Atheesh A Kumar Assistant Professor of Commerce**

PG and research department of commerce has conducted a webinar relating to hypothesis formulation in research during the covid pandemic situation. The webinar was coordinated by Shri

Atheesh .A.Kumar and presidential address was delivered by College Principal Dr.R.Sunil Kumar. The webinar was carried over by the resource person Dr. K Pradeep Kumar (Associate Professor, Govt College, Attingal) relating to various areas of research hypothesis like research design, process, different hypothesis steps .He also delivered an impressive talk about the importance of research hypothesis that the research hypothesis helps the researchers ask more questions and look for answers for disconfirming evidence. The session starts at 11.00am. As the webinar was mainly provided to M.Com students, all the PG students attended the webinar. The session ended at 1.00pm.
