DEPARTMENT OF ECONOMICS

(2019-20)

TITLE OF THE COURSE - *SECURITY MARKET ANALYSIS*

Instructional Hours -30 Hrs

About the Course

This course is designed to develop analytical skills for making sound investment decisions, based on publicly available information, while developing reasoning and critical thinking skills through presentations and extensive in-class discussions. This course introduces students to investment analysis, including fundamental, technical and industry analysis, as well as to selection of appropriate investment vehicles, including options strategies. Students will learn how to research publicly traded companies using various internet-based information sources and computer programs. Particular attention is paid to analyzing crowd behavior based on specific market indicators, scrolling financial news tape and analyzing financial analysts' recommendations.

Course Objective

- This course is intended to provide students with an understanding of the structure, organization and working of financial markets and institutions in India.
- It helps to explore the connection between the Financial Institutions, Instruments and Markets in the business environment and their role played in the Indian economy.
- It throws light on the Financial Innovations on new financial instruments for smooth and profitable investment decisions.

Learning Outcomes

- On successful completion of the course students will be able to apply and analyse the Concepts relevant to Indian financial markets and financial institutions.
- Understand and analyse the mechanics and regulation of financial instruments and determine how the value of stocks, bonds, and securities are calculated.
- Evaluate empirical evidence of the market performance and accordingly the role of regulatory authorities to develop the financial market.
- Research and analyze specific problems or issues related to financial markets and institutions.
