Computation of (SGPA) and (CGPA)

Computation of Semester Grade Point Average System (SGPA) and Cumulative Grade Point Average (CGPA):

➤ The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the course components taken by a student and the sum of the number of credits of all the courses undergone by a student in a semester, *i.e*

$$\text{SGPA} (S_i) = \frac{\sum(C_i \times G_i)}{\sum C_i}$$

where ' C_i ' is the number of credits of the i^{th} course component and ' G_i ' is the grade point scored by the student in the i^{th} course component.

➤ The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, *i.e.*

$$\text{CGPA} = \frac{\sum(C_i \times S_i)}{\sum C_i}$$

Where ' S_i ' is the SGPA of the i^{th} semester and C_i is the total number of credits in that semester.

➤ The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

➤ The skill component would be taken as one of the course components in calculation of SGPA and CGPA with given credit weightage at respective level.

Profile of the College

Department of Sanskrit, Sree Narayana College, Kollam.

Name of the Course - **Certificate Programme in Sanskrit Proficiency.**

Course Duration - Six Months.

Background

There is a growing community of Sanskrit lovers due to personal or professional reasons. They are catered by traditional Sanskrit courses which are time consuming or general Sanskrit texts which are unguided. Most available Sanskrit classes work on general interest spoken Sanskrit basis or adopt a classical Sanskrit teaching approach. In short, the current methods and mechanisms to transmit the knowledge of Sanskrit are neither limited nor cater to an optimum possible audience. There is a lack of enough proficient spoken Sanskrit trainers too who know the nuances of domain-specific knowledge of Sanskrit linking with modern times.

Rationale of the Course

The proposed approach attempts to train Sanskrit Trainers or Sanskrit Speaking Consultants who can provide an in-person guided Spoken Sanskrit Courses. There will be *General Spoken Sanskrit* and *Advanced Sanskrit* specialised for new-economy knowledge areas. It attempts to link Sanskrit to the modern job market and economy, which is the first and unique attempt in South India.

Also, we propose to set-up a mini-Sanskrit Lab as part of the course. The lab will be composed of spoken tutorials, study materials in digital formats, apps, websites, Virtual Reality programmes for Sanskrit Learners and other related facilities.

Objectives of the course

1. To create a new cadre of *Trainers of Spoken Sanskrit* and to make available their service in different areas or sectors of knowledge and economy.
2. To give students a clearer and practical foundation of Sanskrit as a living language to apply it in a variety of other contemporary fields.
3. To facilitate the understanding of simple texts and core vocabulary to other professional groups such as Ayurveda, tourism, museum studies, Vedic mathematics, Vasthusasthra, linguistics, computer-science, Manuscript preservation and art forms such as koodiyattam and Astapadi.

Outcome and uniqueness of the Course

By the end of the course, the student will be able to decode knowledge of Sanskrit in different contexts. They will be able to understand Sanskrit narratives, communicate in simple Sanskrit, and analyze the grammar of any basic text. Apart from this they will be able assist others for learning simple Spoken Sanskrit. The course is also unique in terms of its delivery. The methodology will be using a combination of classic and modern teaching approaches to cater the Generation Z learners.

Job Market

The job market is spread across different industries. One is Ayurveda. For example, the Kerala Ayurveda industry stands to benefit out of the various developmental schemes from central and state machineries like Ayush and MSME. This will create opportunities in the healthcare market, particularly Ayush sector. Ayurveda tourism is an associated area though it will take much only in the post COVID-19 season.

The market for cultural and heritage studies is another area. Traditional institutions where there can be add-on courses by specialised trainers is another market. Digitisation, publications, archaeology and heritage sciences are also potential areas for placements. The following job roles will illustrate this.

Job Roles

Spoken Sanskrit Trainers

There is a growing group of professionals and common people who like to learn Sanskrit for general interest or for hobby. They need spoken Sanskrit trainers.

Specialised Sanskrit Assistants or independent Sanskrit Consultants

There are professional areas like Ayurveda, museum studies, Vedic-mathematics, Vasthusasthra, linguistics, programming, Manuscript preservation and art forms such as Koodiyattam and Astapadii where the knowledge of Sanskrit will allow the professionals to function with better efficiency and higher knowledge. Our candidates will be suitable to assist those professionals and train them in Spoken Sanskrit or work as independent consultants for the requirements related to Sanskrit language.

Translators, interpreters and content creators

Highly proficient students can work as Interpreters, translators and content creators for literary ventures, websites and programmes. Translators work with written material while interpreters work with spoken Sanskrit and vernacular or English. Content creators work with websites for creating Sanskrit related content.
